Chair's Report

It is with considerable pride that I present the 2007 Annual Report to Members.

2007 has been a watershed year for Basketball Queensland. In late 2006 we prepared and delivered to Members a comprehensive strategic plan for 2007 which I am pleased to say was 95% achieved during the year. Detailed results were presented at the Annual Conference.

One of the key elements of the plan was the allocation of full time development officers in geographic areas where we identified significant opportunities for participation growth. I am pleased to report that in every case, we produced growth beyond our expectations and I particularly make note of the Gold Coast, Pine Rivers and Yeppoon areas.

Results from the elite end of our sport were outstanding as well. The Board congratulates all those involved in State representative teams, QABL finals and the record number of team participants in State Classics and the Secondary Schools Championship.

Membership growth continues to be our main focus for resource allocation. It is pleasing to see a 4% growth in numbers again this year.

I can not adequately express my appreciation to the thousands of volunteers who make our sport so successful. I think of coaches, assistant coaches, team managers, administrators, referees, mums and dads and hard working committees. Basketball would not exist without their tireless efforts.

My thanks also goes to my Board colleagues who have again this year worked hard to promote our sport at the State level. We have been deeply involved in a number of national issues that will positively impact on our sport starting in 2008. At this time I want to formally record my appreciation for the many years of service on the Board contributed by Warren Berginey (Mr QABL) who sadly passed away during the year. Our sport is better for the efforts of Warren and he will be sadly missed by all.

The BQ staff led by CEO Graham Burns have performed above expectation this year. There was considerable stretch in the strategic plan and they delivered. I acknowledge that their dedication to the sport goes well beyond the standard working week. This is primarily a group of young people with 'serious attitude'.

I acknowledge the role of the Queensland Government who provide significant financial support to basketball. We are one of the top sports funding recipients with funding levels based on real performance.

To all Associations – thank you for your efforts this year. The outcomes proudly reported in the following pages belong to you.

We have many challenges ahead in the future and I once again look forward to working with you all in 2008.

I commend the report to all members and stakeholders.

Neil Fitzpatrick
Chairman

CEO Report

In 2006 the Board of Basketball Queensland embarked on the most comprehensive planning process that they have undertaken for many years. The plan, once formulated, was documented and provided a great deal of detail about why decisions were made. This allowed anyone reading the plan to understand the thinking behind the decisions.

The focus of the plan was membership growth. The Board determined that the best way of achieving this was to strategically place Development Officers in areas where the statistical information suggested there was the greatest potential for growth. The areas selected were:

1. Gold Coast
2. Sunshine Coast
3. Darling Downs
4. Central Queensland
5. Pine Rivers

I am personally proud of the fact that for the third consecutive year, Basketball Queensland has seen growth in membership and I believe that this is a direct result of the strategies adopted by the Board.

Whilst overall growth for 2007 was down on the very significant growth of previous years; the growth in membership of Affiliated Associations was still significant at 4.72% for the year, with membership increasing from 19,288 in 2006 to 20,198 in 2007 (an increase of 910 members)

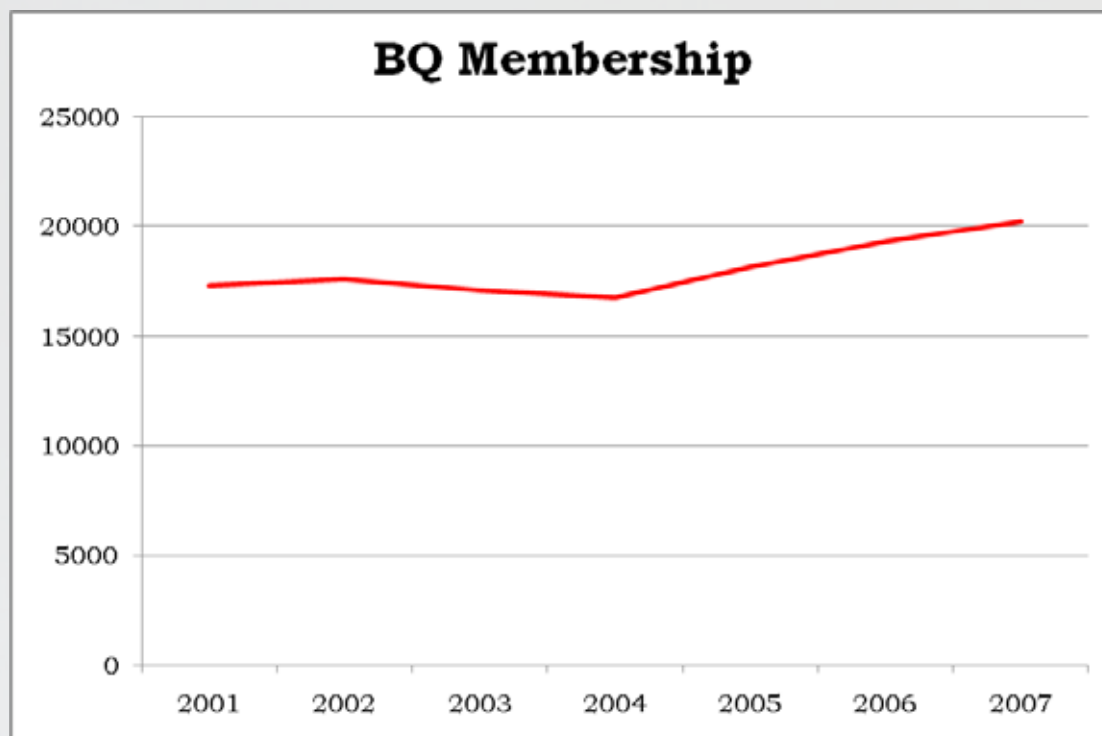

BQ also takes into account other areas for membership such as School Championships and Masters; however, the most sustainable growth occurs in Affiliated Associations. This is a very good result when you consider that a couple of Associations on the Darling Downs did not renew their affiliation with BQ in 2007, and these Associations had a total membership of 415 members at the end of 2006. This means that we have actually increased membership in Affiliated Associations by 1,325 members.

We also need to look at how our Association membership has tracked over the past few years which is detailed in the table below:

Year	Association Members		Growth	
	Start	Finish	Number	%age
2004	17,106	16,748	- 358	-2.09%
2005	16,748	18,143	1,395	8.33%
2006	18,143	19,288	1,145	6.31%
2007	19,288	20,198	910	4.72%
Total	17,106	20,198	3,092	18.08%

Since December 2003 when our Association membership was 17,106 we have grown by 3,092 members (18.08%) despite having lost 2.09% of the members in 2004.

Looking further back, our membership was 17,325 at the end of 2001 and we saw a decline until 2005 when we had a significant spike.

If we review the areas in which we seeded a Development Officer you can see that these areas had significantly better growth than everywhere else in the State. The growth in these areas is outlined in the following table:

Area	Growth			
	2006	2007	Number	%age
Central Qld	1,132	1,588	456	40.28%
Toowoomba	391	462	71	18.16%
North Coast	1,883	1,891	8	0.42%
South Coast	2,579	3,010	431	16.71%
Total	5,985	6,951	966	16.14%

Looking at the rest of the Associations combined by comparison (excluding the Associations who are no longer members) you can see the performance is well ahead of the rest of the state.

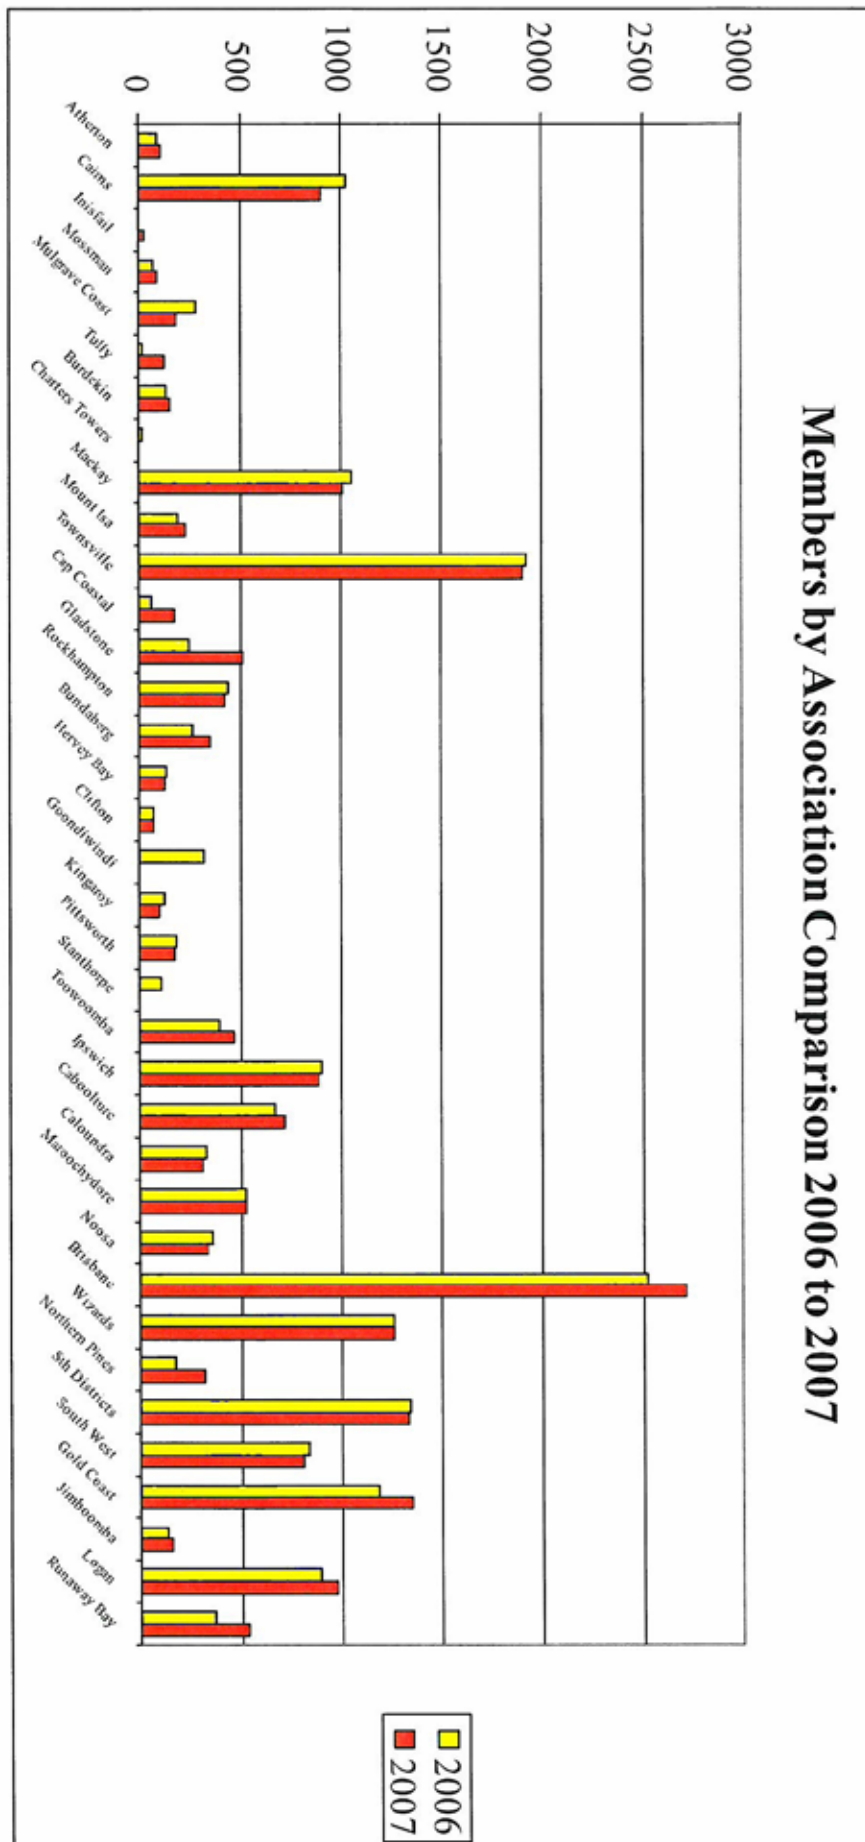

Area	Growth			
	2006	2007	Number	%age
DO Areas	5,985	6,951	966	16.14%
Rest of the State	12,453	12,596	143	1.15%

The best performing Associations in terms of growth are shown in the table below:

Association	Growth
Gladstone	270
Brisbane	192
Gold Coast	165
Runaway Bay	165
Pine Rivers	145
Yeppoon	118
Tully	102
Bundaberg	95
Logan	78
Toowoomba	71

Detailed in the graph on the following page is the membership of all Affiliated Associations for both 2006 and 2007 so you can see how each Association fared in 2007:

2007 was also a year of achievement for Basketball Queensland. Listed below are some of the more significant achievements for 2007:

Membership

1. Introduced Development Officers to five areas and formulated a “best practice” model for membership growth;
2. We saw an increase in membership for the third year in a row.

Junior Representative Basketball

3. A 34% increase in the number of representative teams competing in the BQJBC;
4. A slight increase in the number of teams competing at the Classics; however, with the increase in BQJBC Teams we expect to see an increase in teams in the 2008 Classics;

Player Development

5. Conducted our first underpinning camps in Cairns, Mackay, Yeppoon and the Gold Coast;
6. Introduced State Development Teams who compete at the Pacific Coast Slam;
7. Introduced a program to assist players who have graduated from the ITC as they lead into Senior Representative teams;
8. Eight players receiving AIS Scholarships.

State Teams

9. Our State Teams fared very well with the Under 20s winning two silver, the Under 18 South Boys and Girls winning Bronze and the Under 16 South Girls finishing fourth.

Referees

10. Rewrote all of the referee training manuals and continued to deliver Level 0 and 1 referee courses free of charge;
11. Increased the level of Referee education at all Classics so that we now have a standard format for delivery where we see referees rostered to ensure that at least half of each day at the tournament is dedicated to education and development;
12. Provided development opportunities to Referee Educators through the Victoria Classics and the Pacific Coast Slam. Educators have been sent to these events to receive the training offered by the hosts and to ensure that they acquire a network throughout Australia;
13. Referees attending the Under 18 Classics were by invitation making the standard of refereeing significantly better than it had been in previous years. This approach is now being mirrored (to a lesser extent) in the Under 16s;
14. Referee database is now in operation with regular newsletters and information forwarded to them;
15. We now have a presenter's database with suitably qualified people available to present courses throughout Queensland;
16. QABL Referee Evaluations are conducted on at least 95% of games which is significantly higher than other leagues (Big V and SEABL would be approximately 65% of games);

Coaching

17. We conducted two Level 2 Coaching Courses during the year (we had not conducted a Level 2 Coaching Course in the three years prior to 2006 when we conducted one course. We now plan to make this a regular part of the calendar);
18. Coaches' database is now in operation with regular newsletters and information forwarded to them;

Competitions

19. Introduced a new Masters Tournament at Caloundra;
20. Conducted the Under 14 Boys National Club Championships in Townsville;
21. Successfully combined the QABL into one Division of 15 teams;
22. Record number of teams competing in the Champion School of Queensland Tournament; and
23. Regional Challenge was removed from the competition calendar.

Professional Development

24. Funded a workshop for all Development Officers (both BQ and Association employees) to assist in their development. The focus was on providing sales training and we see these roles as sales roles, selling basketball to school age potential players.

Other

25. Finalised a partnership agreement with Queensland Primary and Secondary School Basketball.

I would like to take this opportunity to firstly thank all of the volunteers and staff of the Affiliated Associations. Without the hard work and dedication of these people basketball would not survive in this State.

The hard work and dedication of the members of the Referee Standards Committee and all of the personnel involved in coaching and managing the State Teams can not go unnoticed. All of the people involved in these endeavours are volunteers and give up many hours of their time to dedicate to these tasks, so I would like to thank all of these people also.

I would also like to thank both the staff and the Board of Basketball Queensland for their support throughout the year. In particular, I would like to thank the Chairman, Mr Neil Fitzpatrick, who continues to be a tireless worker for basketball in Queensland.

Coach Education and Officials

In 2007, many coach education opportunities were given with a flurry of courses being conducted. Compared to previous years many more courses were conducted in a variety of different locations and servicing a significant population of the Queensland basketball community. The specifics included:

Level 0	13 Courses conducted in 2007
Level 1	26 Courses conducted in 2007
Level 2	2 Courses conducted in 2007

These numbers, whilst not significant by themselves, reflect a very wide net of locations and many centres who had not had opportunities to run courses for some years and now had access to these training and educational services. As a bonus throughout some of these courses special guests attended. Participants attending the Basketball Queensland Level 2 Coaching Course on Sunday 14th of January had the privilege of speaking with Brian Goorjian, the current Head Coach for the Sydney Kings and the Australian National Team.

During 2007 there were also opportunities for coaches to attend training sessions for the Boomers. The Australian Men's National team had a training camp on the Gold Coast, which was one of their preparation phases, before they played against New Zealand in the FIBA Oceania Men's Championship for the right to go onto Beijing in 2008. Coaches from Queensland had the privilege to attend various training sessions and see the team in action.

As a very special event, Mike Dunlap conducted a coaching clinic in Queensland on Saturday the 9th of June. Currently the Head Assistant Coach of the Denver Nuggets, Coach Dunlap has a vast array of experience in both coaching in Australia, with the NBL franchise the Adelaide 36ers, and the NBA.

To supplement the coaching courses further opportunities were presented through coaches attending the North and South Underpinning Camps. Coaches attending these camps had the opportunity to work with coaches such as Bruce Palmer, Ron Radliff, Shane Froling, Mark Wrobel and many others.

Other opportunities for coaches included many state teams offering open sessions for coaches to attend and watch what was going on at the elite level.

During the course of the 2007 season there were many achievements for Queensland referees at a National Level. This includes both junior and senior competitions.

QABL Competition Results

Queensland Australian Basketball League - Grand Final Results

The 2007 QABL saw the Sunstate and Southern Cross Division of the competition combine to form a true state-wide league of only one division.

Over the weekend of 10th & 11th August the 2007 QABL Grand Final took place, with a best of three games format. Competing in the grand finals were Townsville and Maroochydore in the women's and Cairns and Gold Coast in the men's.

In great style both Townsville and Cairns won the first two games of the grand final series, preventing the need to go to a third game.

Congratulations to our QABL State Champions and to all teams for making the 2007 QABL an exciting competition week in and week out.

QABL Development League - Grand Final

Congratulations to Brisbane Basketball who took out both the Men & Women's Development League Grand Finals.

Finance Director's Report

The financial year ended 31 December 2007 is the eighth term I have served as Finance Director of Basketball Queensland. The financial year was "business as usual" and accordingly there is very little out of the ordinary to report.

The Income and Expenditure Statement shows that Basketball Queensland had an operating surplus of \$23,297.31 for the year ended 31 December 2007.

The Board had budgeted for a small surplus for the 2007 year so the result is quite pleasing and a credit to Graham and his team's management of Basketball Queensland resources.

The 2007 financial year saw for the first time in a number of years, a modest increase in member's fees and member's fees have been raised again in 2007 in line with CPI. The increases have been necessary to alleviate the rising costs incurred by Basketball Queensland in delivering services to the members. The Board has again budgeted for a small profit for the 2008 financial year.

The Board continued to implement strategies in accordance with the Strategic Plan throughout 2007 and accordingly there were no major deviations in the budget set.

I thank the Board for your support and commend Graham and Anne for your professionalism and commitment throughout the year.
