

Hi All,

Hope everyone had a great weekend.

Just letting you all know we've now locked down the "Member Types" on the Community Football & Umpire NRS Forms which simply means that Clubs cannot modify the "Member Types" that their participants are able to register as on their Club NRS Reg Form. An example of this is that on all Club NRS Reg Forms nationally now, by default the options for participants to register as will be from a choice of Player, Coach, Official, Volunteer or MISC. For the Umpire NRS Reg Form, it will be a choice of Umpire or MISC.

The reason why we've made this change is to alleviate issues whereby some Club Administrators were changing some of the "Member Types" being able to be chosen which was causing other issues later on especially with the registrations. Operationally, there is no impact on Club Administrators relating to this change, it's business as usual. The next step we looking forward to seeing is ensuring that every participant who registers via the NRS Reg Forms are forced to pick at least "one" member type, this a Development we have requested from FSP and should be ready by the end of the end of the month hopefully.

Also as an FYI, we've started to make some changed in Footyweb re the wording from "Match Official" to "Umpire" so you'll start to see this change take place as well. The reason why we've started to make this change is because there was still some confusion in Community Football regarding the differences between the Member Types being "Match Official" and "Official" (ie Umpires were being registered as "Officials" in some cases) so to alleviate this confusion we've gone with the name change from "Match Official" to "Umpire".

Any questions regarding the above, please reach out to me anytime.

Regards,

Tony
